

Use the www.Anthem.com Find a Doctor tool to search on-line for participating KeyCare PPO/National BlueCard PPO providers.

Find a Doctor Tool

1. From the Anthem.com landing page scroll down the page until you are on the Find a Doctor screen. Click on the “Find a Doctor” icon.
2. On the next screen (example shown here), the fastest way to find KC PPO providers is to **use the Anthem ID card three letter alpha prefix code** that will be listed on PPO plan Anthem ID cards. (The three letter Anthem ID# for the KeyCare PPO & National BlueCard PPO participating provider network is “YTP”). By entering the “YTP” alpha prefix into the “FindaDoctor” search tool, the system will automatically only search for providers in the **KeyCare PPO & National Bluecard PPO** participating provider network.
3. Input your search criteria, and then click the “search” icon for your results. You can then print or email a custom directory.
