Miscellaneous Conversion Policies

Summary/Description:

The process of converting the Lynchburg City Schools' (LCS) policies to the Virginia School Board Association (VSBA) format is ongoing process which has involved the conversion of entire sections of the LCS policy manual at a time. During the conversion of the first three LCS sections, several VSBA policies were not adopted at that time as there was no corresponding LCS policy. In addition, updates to VSBA policies have been received that need to be adopted immediately as a LCS policy. Rather than delay until an entire section is converted, individual policies are being brought to the Board for adoption.

Foundations and Basic Commitments

SCHOOL DIVISION GOALS AND OBJECTIVES

A. Generally

The school division is committed to excellence in education, equality of educational opportunity, and the recognition of each student's individuality. Inasmuch as students differ in their rate of physical, mental, emotional and social growth and vary in their needs and abilities, learning opportunities are provided that are consistent with personal development and potential. Programs shall emphasize diagnostic and prescriptive instruction, allowing an individual approach to each student's learning style and educational needs.

The educational program introduces each student to a variety of interest and subject areas that offer exposure to the range of opportunities available in later years. These experiences produce the basis for further education and future employment. As students demonstrate increased maturity, they may assume more responsibility for the decisions regarding their education.

The school environment should be responsive and conducive to learning. The physical environment facilitates and enhances the learning experiences available to each student. A responsive environment includes competent, dedicated teachers using a variety of techniques and a classroom atmosphere where students can function and develop according to their abilities. Safety, physical comfort, and appearance also are vital environmental components.

B. Standards of Quality and Objectives

The School Board accepts the overall goals of public education as expressed by the Standards of Quality legislated by the Virginia General Assembly and implemented by State Board of Education regulations.

The School Board will report its compliance with the Standards of Quality to the Board of Education annually. The report of compliance will be submitted to the Board of Education by the Chairman of the Board and the Division Superintendent.

C. Standards of Quality □ □ Programs and Services

The School Board commits itself to providing programs and services as stated in the Standards of Quality to the extent funding thereof is provided by the General Assembly.

Adopted:

Legal Ref.: Code of Virginia, 1950, as amended, §§ 22.1-253.13:1, 22.1-253.13:8.

COMPREHENSIVE PLAN

The Lynchburg City School Board will adopt a divisionwide comprehensive, unified, long-range plan based on data collection, an analysis of the data, and how the data will be utilized to improve classroom instruction and student achievement. The plan will be developed with staff and community involvement and will include, or be consistent with, all other divisionwide plans required by state and federal laws and regulations. The School Board shall review the plan biennially and adopt any necessary revisions. Prior to the adoption of the plan or revisions thereto, the School Board will post the plan or revisions on the division's Internet website if practicable and make a hard copy of the plan or revisions available for public inspection and copying and will conduct at least one public hearing to solicit public comment on the plan or revisions.

The divisionwide comprehensive plan will include

- (i) the objectives of the school division, including strategies for first improving student achievement, particularly the achievement of educationally at risk students, then maintaining high levels of student achievement;
- (ii) an assessment of the extent to which these objectives are being achieved;
- (iii) a forecast of enrollment changes;
- (iv) a plan for projecting and managing enrollment changes including consideration of the consolidation of schools to provide for a more comprehensive and effective delivery of instructional services to students and economies in school operations;
- (v) an evaluation of the appropriateness of establishing regional programs and services in cooperation with neighboring school divisions;
- (vi) a plan for implementing such regional programs and services when appropriate;
- (vii) a technology plan designed to integrate educational technology into the instructional programs of the school division, including the division's career and technical education programs, consistent with or as part of the comprehensive technology plan for Virginia adopted by the Board of Education;
- (viii) an assessment of the needs of the school division and evidence of community participation, including parental participation, in the development of the plan;
- (ix) any corrective action plan required pursuant to Va. Code § 22.1-253.13:3; and
- (x) a plan for parent and family involvement to include building successful school and parent partnerships that will be developed with staff and community involvement, including participation by parents.

The School Board will present a report to the public by November 1 of each odd-numbered year on the extent to which the objectives of the divisionwide comprehensive plan have been met during the previous two school years.

Each school will prepare a comprehensive, unified, long-range plan, which shall be given consideration by the School Board in the development of the divisionwide comprehensive plan.

Adopted:

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-253.13:6.

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

The School Board reviews its performance annually to ensure its proper discharge of responsibilities to the community. Evaluation is based on a positive approach, identifying the strengths of the School Board and opportunities for improvement.

The following elements are included in the self-evaluation process:

1. School Board members are involved in the development of an evaluation instrument and procedure.
2. The School Board evaluation instrument is completed by individual Board members on a confidential basis, and submitted to the School Board Chairman, or the Chairman’s designee, for compilation.
3. The School Board meets, with all members present, to review and discuss the composite results.
4. Each conclusion is supported by objective evidence.

Based on discussion of the results, the School Board develops both short and long-range goals and objectives to ensure continued proficiency in its areas of excellence, to strengthen weak areas and to improve the efficiency of the Board.

The information will also be disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged and each combined subgroup, if any, identified by the Virginia Department of Education. Disaggregated information will not be provided if the number of students in a category is less than 10.

- Aggregate information on any other indicators used by Virginia to determine the adequate yearly progress of students in achieving Virginia's academic achievement standards.
- Graduation rates for secondary school students. The graduation rates reported will include graduation rates for public school students who graduate from secondary school with a regular diploma in the standard number of years.
- The names of reward schools, priority schools and focus schools.
- The professional qualifications of teachers in the division, the percentage of such teachers teaching with emergency or provisional credentials, and the percentage of classes in the Division not taught by highly qualified teachers, in the aggregate and disaggregated by high-poverty compared to low-poverty schools which, for the purpose of this provision, means schools in the top quartile of poverty and the bottom quartile of poverty in Virginia.

- The state's percentage of students at each achievement level on the National Assessment of Educational Progress (NAEP) in reading and mathematics for grades four and eight for the "all students" group. The data will be disaggregated by race, ethnicity, disability status, English proficiency and status as economically disadvantaged. The participation rates for English Learners and students with disabilities will also be reported.

The report card will also show, by the year following implementation of college and career-ready standards, but no later than the 2014-2015 school year, college-going and college credit-accumulation rates for all students and sub-groups of students in each high school and

information that shows how the school's students' achievement on the Standards of Learning and other indicators of adequate yearly progress compared to students in the division and the state as a whole.

The Lynchburg City School Board will publicly disseminate the information in the annual report card to all schools in the division and to all parents of students attending those schools in an understandable and uniform format. To the extent practicable, the information will be provided in a language that the parents can understand. - number and percentage of drop-outs
- the number of Board-approved industry certifications obtained
- the number of state licensure examinations passed
- the number of national occupational competency assessments passed

RESTRAINT AND SECLUSION OF STUDENTS

Physical and mechanical restraint and seclusion may only be used consistent with this policy.

As used in this policy,

“physical restraint” means the use of physical force to restrict the free movement of all or a part of a student’s body. Excluded from this definition is the use of procedures the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“mechanical restraint” means the use of any device or material attached to a student’s body that restricts freedom of movement or normal access to any portion of the student’s body and that the student cannot easily remove. Excluded from this definition is the use of devices or materials the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“seclusion” means the confinement of a student alone in a separate enclosed space, in a manner that prevents the student from leaving. Seclusion is permitted in accordance with a student’s IEP, Section 504, or behavior intervention plan, or to prevent injury to the student or others. When a student is placed in seclusion, he or she will be monitored by a staff member in close proximity. It is preferable that the staff member can see or observe student. A student placed in seclusion will be released from seclusion upon cessation of the behaviors that led to the seclusion; after a reasonable period of time in the seclusion setting during which it is determined that the seclusion will not be effective; or in accordance with the student’s IEP, Section 504 plan, or behavior intervention plan. The space used for seclusion must be appropriately lighted, ventilated, and heated or cooled, and free from objects that unreasonably expose the student or others to harm.

Physical restraint, mechanical restraint, and seclusion may only be used by a staff member who has been trained in the proper use of the technique applied or device utilized and should only be used in the following circumstances:

- as needed to protect an individual from his or her own actions;
- as needed to protect others from injury by the restrained person;
- as needed to quell a disturbance;
- as needed to gain possession of weapons or other dangerous objects on the person or within the control of a student;
- as needed for self-defense;
- as needed to escort a student safely from one area to another;
- as reasonably needed to prevent imminent destruction to school or another person’s property;
- when using seat belts or other safety restraints to secure a student during transportation;

- to direct the movement or actions of a student to avoid the undue or deliberate disruption of the learning environment;
- as authorized by the Code of Virginia, or
- as authorized by a student's IEP, Section 504 plan or behavior intervention plan.

Nothing in this policy is intended to limit the application of Va. Code § 22.1-279.1 which provides generally that:

No teacher, principal or other person employed by the school board shall subject a student to corporal punishment. This prohibition of corporal punishment shall not be deemed to prevent the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control;

- the use of reasonable and necessary force to quell a disturbance or remove a student from the scene of a disturbance which threatens physical injury to persons or damage to property;
- the use of reasonable and necessary force to prevent a student from inflicting physical harm on himself;
- the use of reasonable and necessary force for self-defense or the defense of others;
- the use of reasonable and necessary force to obtain possession of weapons or other dangerous objects or controlled substances or paraphernalia which are upon the person of the student or within his control;
- physical pain, injury or discomfort caused by participation in practice or competition in an interscholastic sport; or
- participation in physical education or an extracurricular activity.

Documentation and Notice to Parents

A parent or guardian will be notified in writing within a reasonable period of time, not to exceed 15 school days, after any use of

- physical restraint; or
- seclusion resulting in observed physical injury to the student.

The staff member who utilizes restraint or seclusion will be responsible for making a record of information regarding its use including the date, time, duration, precipitating behavior, outcome and other pertinent observations. Documentation is not required when using mechanical devices that are authorized and utilized for the student's safety or physical support such as bus harnesses, lap belts, rifton chairs and similar devices. This policy does not permit the use of a restraining device to limit a student's mobility when that device is not ordinarily used with the student.
