A Statewide Approach to School Improvement

The Virginia Department of Education (the Department) is launching a bold, research-based redesign of how school improvement is supported across the Commonwealth. This new model is anchored in a clear theory of action, when high-quality quantitative and qualitative data are used to understand strengths and challenges in student learning, the Department can align targeted, evidence-based supports that measurably improve student outcomes.

To inform this approach, the Department conducted a comprehensive review of high-performing state education agencies across the nation. The analysis identified key practices associated with improved student outcomes. Drawing on these insights, the Department is focusing on the following critical elements:

Organizational Structure

The Department is implementing a strategic realignment of offices, roles, and responsibilities to improve coherence, collaboration, and operational efficiency. These structural adjustments are designed to streamline communication and increase collaboration to ensure that schools and divisions experience a coordinated and responsive system of support from the Department.

Funding Priorities

Resources are being directed toward the implementation of evidence-based practices. Leadership is empowering school and division leaders with more autonomy and flexibility to maximize every dollar for students, while requiring clear demonstration of returns on investments that directly lead to improved student outcomes.

Effective School Improvement Practices

School improvement is the responsibility of the entire Department. By engaging subject-matter experts from across offices, the Department expands its capacity to deliver high-quality support statewide and increases the depth of expertise available to schools and divisions. This cross-department approach ensures that every school and division benefits from a research-grounded, data-informed, and coordinated system of support.

School Improvement Process

The school improvement approach is grounded in a four-step process for school success. This process is designed to identify strengths, analyze needs, plan strategically, and monitor progress with rigor and transparency.

Step 1: Current State Analysis

This step establishes a clear, evidence-based understanding of a school or division's performance, strengths, and challenges. Key actions include:

- Needs assessment to identify specific areas where the school or division is not meeting expectations.
- Asset mapping to identify and document existing strengths and resources within the division, school, and community.
- Root cause analysis to uncover underlying reasons for performance challenges.
- Resource allocation review to assess how funds are deployed, evaluate the return on investment, and identify any disparities in funding, staffing, or materials that may impede improvement efforts.

Step 2: Planning and Prioritization

This step transforms finding from the current state analysis into a focused, actionable improvement plan. Key actions include:

- Developing a multi-year school support plan to directly address root causes and leverage assets (from the asset mapping process) to support school improvement.
- Prioritizing needs based on impact, feasibility (budget, time, personnel, etc.), and urgency.
- Establishing specific, measurable, achievable, and time-bound goals.
- Selecting evidence-based interventions and creating a detailed funding and staffing plan for execution.

Step 3: Implementing, Monitoring, and Accountability

This step ensures the improvement plan is executed as intended and that progress is regularly measured. Key actions include:

- Developing clear, outcome-based monitoring protocols defining implementation checks (are we doing what we said we would do?) and progress checks (is it working?).
- Implementing monitoring protocols with regular site visits, data reviews, and check-ins to provide timely, actionable feedback to school and division leadership.

Step 4: Progress Reporting and Reflection

This step focuses on transparent communication of progress towards defined goals. Key actions include:

- Quarterly reporting on implementation status, interim progress data, and next steps.
- Annual reporting summarizing progress, highlighting improvements in student outcomes, and detailing successes and ongoing challenges.

This statewide approach reflects a commitment to data-informed decision-making, strong cross-department collaboration, and evidence-based action. Together, these elements create a robust and sustainable model for improving teaching, learning, and student outcomes across the Commonwealth.

A Systemic Multi-Year School Support Plan to Improve Student Outcomes

Research suggests that lasting improvement in schools takes time, focus, and consistent support. A multi-year support plan gives schools the time they need to move beyond short-term fixes and address the root causes of challenges that impact student learning. Planning over multiple years enables schools to make stronger instructional changes, learn from what works, and build the skills and systems necessary to lead to long-term success for students. A multi-year school support plan helps schools by:

- **Giving improvement time to work:** Evidence-based interventions typically require three to five years to yield sustainable improvements in student outcomes.
- **Using resources strategically:** Planning ahead helps schools and divisions use time, talent, and funding effectively, aligning operations and practices to improve efficiency, maximize return on investment, and achieve meaningful improvements in student outcomes.
- **Building trust and clarity:** Families and communities are actively involved in planning, which builds confidence that the school is committed to long-term success and garners lasting support for improvement efforts.

- **Staying focused:** When a school works toward accomplishing well-defined goals over several years, they increase the likelihood of making measurable sustained impact on improving student outcomes.

The Every Student Succeeds Act provides states with flexibility to design and implement school improvement strategies that are responsive to local needs and grounded in evidence-based practices. One such provision allows states to offer a dedicated planning year to schools newly identified for Comprehensive Support and Improvement or Additional Targeted Support and Improvement. This planning year serves as a foundational phase, enabling schools to engage in a thoughtful and data-informed process before launching their multi-year improvement efforts.

Beginning with the 2025–2026 school year, the Department will require all newly identified Comprehensive Support and Improvement or Additional Targeted Support and Improvement Schools to participate in a planning year as defined in the [Virginia Consolidated State Plan](#). This ensures that school improvement strategies are deeply rooted in a clear understanding of each school’s unique context, strengths, and challenges to develop a clear, evidence-based path forward.

Planning Year for Newly Identified Comprehensive Support and Improvement and Additional Targeted Support and Improvement Schools

During the planning year, school divisions may decide to engage in one or more planning year activities designed to uncover the root causes of underperformance. Allowable expenses using School improvement Grant funds include:

- conducting a [needs assessment](#);
- identifying resource inequities;
- monitoring student outcomes across all indicators in the School Performance and Support Framework;
- engaging families and community;
- rigorously reviewing external providers;
- evaluating staffing models;
- reviewing and selecting instructional programs;
- providing professional development and supports; and
- implementing other planning activities as needed.

These activities are intended to identify systemic barriers to student success and to inform the selection of evidence-based interventions that are both targeted and sustainable. Some planning year activities are required and others are suggested.

Required Planning Year Activities

Conduct a Needs Assessment

The [needs assessment](#) is the cornerstone of developing the Multi-year School Support Plan, serving as a comprehensive diagnostic tool to help identify the root causes of underperformance. This process involves analyzing multiple sources of quantitative and qualitative data aligned to the School Performance and Support Framework to identify strengths, challenges, and gaps in student outcomes. According to the Every Student Succeeds Act, the needs assessment must be grounded in evidence and informed by input from educators, families, and community members. This process establishes a clear, shared understanding of the school's current context, which allows for targeted and strategic action planning.

Identify Resource Inequities

The Every Student Succeeds Act requires that Comprehensive Support and Improvement and Additional Targeted Support and Improvement Schools identify and address resource inequities that may contribute to disparities in student achievement. This work involves examining how financial, human, and material resources are distributed within the school and among schools. Key features include analyzing access to experienced teachers, advanced coursework, technology, and support services. Identifying these disparities is essential to ensuring that all students have the opportunity to succeed. The findings from this analysis inform strategic decisions about reallocating resources to more effectively support student learning and advance school improvement goals.

Monitor Student Outcomes Across All Accountability Indicators

Monitoring student outcomes across all accountability indicators is critical for understanding how well the school is serving all students. During the planning year, schools will establish and implement protocols to monitor disaggregated student outcomes across all indicators. This approach ensures that improvement efforts are proactive, forward-looking, and informed by data, allowing educators to proactively anticipate and respond to the needs of all learners. It also helps educators establish clear, measurable goals and interim benchmarks aligned with state accountability expectations and continuous improvement.

Suggested Planning Year Activities

Engage Families and Community

Family and community engagement is a foundational element of effective school improvement planning. The Every Student Succeeds Act emphasizes the importance of meaningful stakeholder involvement in both the planning and implementation phases. During the planning year, schools create structures for ongoing dialogue with families, community organizations, businesses, higher education, and local leaders to ensure that the support plan reflects shared priorities. This approach builds trust, fosters collaboration, and strengthens the school's capacity to meet the holistic needs of students.

Rigorously Review External Providers

When schools choose to partner with external providers such as consultants, curriculum vendors, or professional development organizations, the Every Student Succeeds Act requires that these providers be rigorously vetted for quality and evidence of effectiveness. During the planning year, schools establish criteria for selecting providers that align with their identified needs and improvement goals. This includes reviewing research, and evaluating past performance, deliverables, and outcomes. A rigorous review process helps schools avoid ineffective or misaligned partnerships and ensures that external support contributes meaningfully to student outcomes.

Evaluate Staffing Models

Staffing plays a critical role in school improvement, and the Every Student Succeeds Act encourages schools to examine whether their current staffing models support access to high-quality instruction. During the planning year, schools analyze teacher licensure and qualifications, turnover rates, leadership structures, and staff deployment to determine what is working well and what changes are needed. This evaluation may lead to strategies such as strategic staffing, targeted recruitment and retention strategies, professional learning experiences, or coaching. Aligning staffing models with student needs and improvement priorities allows educators to establish a strong foundation for instructional excellence and student success.

Review and Select Instructional Programs

Reviewing curricula, instructional materials, and program for standards alignment, appropriateness to the school context, and overall quality is essential for establishing a strong instructional base. The Every Student Succeeds Act requires that interventions and curricula used in school improvement be evidence-based. Educators can review instructional materials vetted by Virginia educators for alignment to standards on the [Department's textbook and instructional materials site](#), using the [Department's textbook review process](#). Schools can identify and select instructional programs that are grounded in evidence, build on existing strengths, and directly address findings in the needs assessment. This process ensures that instructional materials are aligned, relevant, and capable of accelerating student learning.

Provide Professional Development and Supports

Professional development is essential for equipping educators with the knowledge and skills needed to implement the school support plan effectively. During the planning year, schools identify professional learning needs based on the findings of the needs assessment and the instructional shifts required by selected interventions. The Every Student Succeeds Act emphasizes that professional development must be sustained, intensive, collaborative, and aligned with school improvement goals. This activity includes planning for job-embedded coaching, collaborative planning time, and training on new instructional programs or data systems. By investing in high-quality professional learning, schools build the internal capacity necessary to drive and sustain improvement efforts over time.

Implement Other Planning Activities as Needed

In addition to the core planning year activities outlined by the Every Student Succeeds Act, schools may identify other planning tasks that are critical to their local context. These may include developing communication strategies, refining school climate initiatives, strengthening systems of support, or aligning improvement efforts with other division or state initiatives. The flexibility to implement additional planning activities allows schools to address unique challenges and opportunities that may not be captured through a standard process. These activities, while varied, must still align with the federal emphasis on evidence-based practices, stakeholder engagement, and continuous school improvement. By customizing the planning year to meet their specific needs, schools can ensure that their support plans are both comprehensive and contextually relevant.

Strategic Use of School Improvement Grant Funds to Support the Implementation of Multi-year School Support Plans

School improvement grant funds are designed to support data-informed, evidenced-based improvement efforts included in the Multi-year School Support Plan. As divisions support schools in implementing these plans, grant funding may be strategically used to align resources with identified needs, strengthen implementation, and support improved outcomes for students.

For Comprehensive Support and Improvement, Additional Targeted Support and Improvement, and Targeted Support and Improvement Schools, allowable uses of School Improvement Grant funds may be incorporated into the Multi-year School Support Plan to address prioritized needs as identified through the needs assessment process.

Allowable expenditures for multi-year school support planning and implementation that were not identified as part of the planning year may include, but are not limited to:

- evidence-based strategies
- equipment
- pay beyond contract hours
- professional learning materials and supplies
- professional and consulting services
- software licensing
- high-quality tutoring and interventions
- extended learning opportunities
- parent and family engagement activities
- division-level activities to support the implementation of the Multi-year School Support Plan

The full list of allowable and unallowable expenditures is detailed in the school improvement grant application.

Multi-Year School Support Plan Requirements by Federal Identification Status

The [Virginia Consolidated State Plan](#) and Virginia Code ([8VAC20-132-280](#)) describe specific requirements for schools with federal designations in the development of the Multi-year School Support Plan. Table 1 summarizes these requirements by federal identification status and planning questions. This table is intended to provide clarity and support educators in understanding the actions required to meet federal and state expectations.

Table 1: Summary of requirements by federal identification status.

School Federal Identification Status	Does the school have a planning year?	Who conducts the needs assessment?	Who develops the multi-year school support plan?	How many evidence-based interventions are required?	Is the plan required to identify & address resource inequities?	Who must review the multi-year school support plan?	Who must approve the multi-year school support plan?
Newly Identified Comprehensive Support and Improvement – Low Performing	Yes	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State
Newly Identified Comprehensive Support and Improvement – Additional Targeted Support and Improvement	Yes	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State

School Federal Identification Status	Does the school have a planning year?	Who conducts the needs assessment?	Who develops the multi-year school support plan?	How many evidence-based interventions are required?	Is the plan required to identify & address resource inequities?	Who must review the multi-year school support plan?	Who must approve the multi-year school support plan?
Newly Identified Comprehensive Support and Improvement – Federal Graduation Indicator	Yes	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State
Newly Identified Comprehensive Support and Improvement – More Rigorous Interventions	No	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State
Continuing Comprehensive Support and Improvement	No	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State
Continuing Comprehensive Support and Improvement – More Rigorous Interventions	No	Division for the School	Division for the School	At least Four	Yes	Local School Board	School, Division, and State

School Federal Identification Status	Does the school have a planning year?	Who conducts the needs assessment?	Who develops the multi-year school support plan?	How many evidence-based interventions are required?	Is the plan required to identify & address resource inequities?	Who must review the multi-year school support plan?	Who must approve the multi-year school support plan?
Continuing Additional Targeted Support and Improvement	No	School	School	At least Two	Yes	N/A	Local School Board and Division
Targeted Support and Improvement Schools	No	School	School	At least Two	No	N/A	Local School Board and Division

Developing the Multi-year School Support Plan

A well-developed and implemented Multi-year School Support Plan is essential for sustained improvement. The school division identifies a lead who is responsible for facilitating the completion and submission of the Multi-year School Support Plan, including stakeholder engagement. The division lead will be the point of contact for all communications regarding the Multi-year School Support Plan. Complete table 2 to provide information about the division and school.

Division and school information (table 2) and stakeholder engagement (table 3) must be completed for all schools. Planning year activities (tables 4 and 5) must be completed by all newly identified Comprehensive Support and Improvement and Additional Targeted Support and Improvement Schools.

Division and School Information

Table 2: Division and School Information

Information Needed	Enter Information Below
School Year	2025-2026
Division Name	Lynchburg City Schools
Division Superintendent	Dr. Kristy Somerville-Midgette
School Name	Perrymont Elementary School
Grades Served	K-5
Principal Name	Mrs. Dominique Foster
Principal Email	fosterdc@lcsedu.net
Division Multi-year School Support Plan Lead Name and Title	Dr. Jennifer Davis, Deputy Superintendent

Information Needed	Enter Information Below
Division Multi-year School Support Plan Lead Email	davism1@lcsedu.net

Stakeholder Engagement

Developing the plan with stakeholders is required and includes teachers, school leaders, community partners, parents, students, and representatives from business, higher education, or the military. Actively involving stakeholders supports purposeful planning, builds shared ownership, and helps translate the plan from intent to action, leading to improved student outcomes.

Table 3: Stakeholder engagement

Identify the stakeholder group represented, name, email department/office/organization, and title for each stakeholder. Add or remove rows as necessary.

Stakeholder Representation	Name	Email	Organization, Department, or Office	Title
School Leader	Dominique Foster	fosterdc@lcsedu.net	Perrymont ES	Principal
School Leader	Ashley Newsome	newsomead@lcsedu.net	Perrymont ES	Assistant Principal
Academic Coach	Lisa Smith	smithal@lcsedu.net	Perrymont ES	Literacy Coach
Academic Coach	Andrea Lively	livelyak@lcsedu.net	Perrymont ES	Data Coordinator Instructional Resource Teacher
Reading Teacher	Shawn Lipscomb	lipscombsm@lcsedu.net	Perrymont ES	Title I Reading Teacher
Teacher	Kinsey Brackman	brackmanka@lcsedu.net	Perrymont ES	Kindergarten Teacher
Teacher	Abigail Gaede	gaedeak@lcsedu.net	Perrymont ES	Third Grade Teacher
EL Teacher	Janet Mantilla	mantillajm@lcsedu.net	Perrymont ES	EL Teacher

Planning Year

All newly identified Comprehensive Support and Improvement and Additional Targeted Support and Improvement Schools are required to engage in a planning year. Complete table 4 to describe activities that will occur during the planning year. If a planning year is not required, then proceed to table 6.

Table 4: Summary of Planning Year Activities

For each planning year activity, provide a brief summary of (1) what the division plans to do to support the school, (2) why the activity is important, and (3) how the activity will contribute to improved student outcomes.

Required Planning Year Activities	
The activities listed below are required to be completed during the planning year.	
Conduct a needs assessment	PES Team conducted a comprehensive needs assessment through analysis of SOL data, benchmark assessments, subgroup performance, attendance trends, and stakeholder input. This process identified key root causes contributing to low performance and informed priority areas for improvement.
Identify resource inequities	Through the needs assessment process, LES and the LCS division team identified resource inequities, including gaps in access to high-quality instructional materials, intervention services, staffing alignment, and data monitoring systems. These inequities were documented and used to guide planning, resource allocation, and strategy selection.
Monitor student outcomes across all indicators in the School Performance and Support Framework	PES established systems to monitor student outcomes across all indicators within the School Performance and Support Framework, including academic achievement, subgroup performance, and attendance. This includes regular data reviews, progress monitoring, and ongoing evaluation of intervention effectiveness to ensure continuous, data-driven improvement.
Suggested Planning Year Activities	
The activities listed below are not required. If the school division plans to engage in any of these activities and intends to use school improvement grant funding to support them, then the division must complete the information in the table below.	
Engage families and community	What the division plans to do: The division will implement a structured family and community engagement process that includes surveys, focus groups, community forums, and/or advisory committees. Multilingual

	<p>communication strategies will be used to ensure broad participation. The division will also partner with community organizations to address academic and non-academic student needs.</p> <p>Why this activity is important: Family and community engagement strengthens trust, improves transparency, and ensures that improvement efforts reflect the needs and priorities of stakeholders. Research consistently shows that meaningful family engagement is correlated with higher attendance, improved behavior, and increased academic achievement.</p> <p>How this will contribute to improved student outcomes: By incorporating stakeholder voice into planning and providing families with tools to support learning at home, the division increases student engagement, reinforces academic skills beyond the classroom, and addresses barriers to learning. Strong school–family partnerships lead to improved attendance, stronger academic performance, and increased student motivation.</p>
Review external providers	
Evaluate staffing models	
Review and select instructional programs	<p>What the division plans to do: The division will conduct a curriculum and instructional materials audit to evaluate alignment with state standards, rigor expectations, and evidence-based practices.</p> <p>Why this activity is important: High-quality instructional materials are foundational to effective teaching and learning. Programs must align to standards and meet the diverse needs of students to produce measurable gains.</p> <p>How this will contribute to improved student outcomes: Selecting standards-aligned, research-based instructional programs strengthens Tier 1 instruction, ensures consistency across classrooms, and supports targeted interventions. Strong instructional materials increase student mastery of grade-level content and close achievement gaps.</p>

<p>Provide professional development and supports</p>	<p>What the division plans to do: The division will conduct a needs assessment and develop a professional learning plan aligned to identified school improvement priorities. Supports will include job-embedded coaching, professional learning communities (PLCs), data analysis training, and implementation monitoring.</p> <p>Why this activity is important: Improvement initiatives are only successful when educators have the knowledge and skills to implement them effectively. Ongoing, job-embedded professional learning increases instructional quality and consistency.</p> <p>How this will contribute to improved student outcomes: Building educator capacity improves instructional delivery, data-driven decision-making, and intervention fidelity. Strong professional development leads to more effective teaching practices, resulting in increased student engagement, academic growth, and achievement.</p>
<p>Implement other planning activities as needed. Provide a description of the planning activities</p>	<p>What the division plans to do: The division will establish school improvement/implementation teams, develop progress monitoring systems, create clear timelines and benchmarks, and coordinate with VDOE for technical assistance and compliance.</p> <p>Why this activity is important: Effective planning requires coherent systems, accountability structures, and aligned resources. Without clear monitoring and governance processes, implementation may lack consistency and sustainability.</p> <p>How this will contribute to improved student outcomes: Strong planning infrastructure ensures that strategies are implemented with fidelity, progress is regularly monitored, and adjustments are made based on data. This continuous improvement cycle increases the likelihood of sustained academic growth and long-term school improvement.</p>

Table 5: Planning Year Action Plan

Complete an action plan for each activity identified in table 4. For each activity, identify the lead person, team members, actions steps, process owner, time frame, progress checks, measures of success, cost elements, and funding sources.

Planning Year Action Plan						
Planning Year Activity (What do you plan to do?)			Engage Families and Community			
Lead person (Who is responsible for ensuring the work gets done?)			Deputy Superintendent for Instruction			
Team Members (Who are responsible for doing the work?)			Communications Supervisor, Family & Community Engagement Coordinator, School Principal			
Action Step (What will be accomplished?) List the specific, sequenced steps required to complete the activity.	Process Owner (Who is responsible for ensuring the action step is complete?) Identify a single, accountability lead.	Time Frame (How long will it take?) Identify the start and end dates for each action step, including any key milestones.	Progress Checks (How will the team monitor progress?) Define key dates to review process, make adjustments, and confirm the work remains on track.	Measures of Success (How will the team know if the action step is complete?) Define clear, observable indicators of completion.	Cost Elements (What resources are needed to complete the action step?)	Funding Source (Where will the money come from?)
Develop and distribute stakeholder surveys (families, staff, students, community partners).	School Principal Family & Community Engagement Coordinator Communications Supervisor	Summer 2026	Survey Participation Rates	≥ 60% family survey participation	None	None

Establish a School Family & Community Advisory Committee	School Principal Family & Community Engagement Coordinator	Fall 2026	Meeting agenda and minutes from advisory committee meetings	Increased family event attendance by 20%	None	None
Develop a communication plan (multilingual, multiple platforms)	Communications Supervisor	Summer 2026	Documentation and data results from communication platforms	Improved student attendance rates and engagement indicators	Translation and interpretation Services	Title III
Create partnerships with community agencies to address attendance, academic support, and social-emotional needs.	School Principal Family & Community Engagement Coordinator	Fall 2026 - Spring 2027	Partnership agreements/MOUs	Documented community partnerships aligned to identified needs	None	None

Planning Year Action Plan	
Planning Year Activity (What do you plan to do?)	Review and Select Instructional Programs
Lead person (Who is responsible for ensuring the work gets done?)	Deputy Superintendent for Instruction

Team Members (Who are responsible for doing the work?)		Directors & Supervisors from Teaching & Learning, Student Services, Special Education, and Information Technology School Principal, Coaches, Teachers				
Action Step <i>(What will be accomplished?)</i> List the specific, sequenced steps required to complete the activity.	Process Owner <i>(Who is responsible for ensuring the action step is complete?)</i> Identify a single, accountability lead.	Time Frame <i>(How long will it take?)</i> Identify the start and end dates for each action step, including any key milestones.	Progress Checks <i>(How will the team monitor progress?)</i> Define key dates to review process, make adjustments, and confirm the work remains on track.	Measures of Success <i>(How will the team know if the action step is complete?)</i> Define clear, observable indicators of completion.	Cost Elements <i>(What resources are needed to complete the action step?)</i>	Funding Source <i>(Where will the money come from?)</i>
<p>Conduct HQIM Audit of Curriculum and Materials: Use a standards-alignment and HQIM rubric to evaluate current core and supplemental materials for rigor, coherence, knowledge-building, assessment quality, differentiation, and cultural relevance.</p> <p>Identify areas where materials do not fully support grade-level expectations or evidence-based instructional practices.</p>	<p>Director & Supervisors from Teaching & Learning School Principal Coaches Teachers</p>	<p>Summer 2026 - Spring 2027</p>	<p>Completed HQIM evaluation rubrics</p>	<p>Selected materials meet division HQIM criteria with documented rubric scores</p> <p>Materials demonstrate full standards alignment and strong evidence base</p>	<p>HQIM across all content areas</p>	<p>Local funding</p>
<p>Analyze Achievement and Growth Data to Identify Instructional Gaps :Review proficiency, growth,</p>	<p>School Principal Coaches Teachers</p>	<p>2026-2027 SY</p>	<p>Data gap analysis report (including subgroup analysis)</p>	<p>Increased percentage of students receiving grade-level Tier 1 instruction with fidelity</p>	<p>HQIM across all content areas</p>	<p>None</p>

subgroup performance, and item-level data. Determine whether current Tier 1 materials adequately support grade-level mastery. Identify content strands requiring strengthened instructional support.				Measurable increases in benchmark performance and subgroup growth during implementation year		
Establish a teacher review Committee	School Principal, Teachers	Summer 2026 - Fall 2026	Documented meeting agenda & minutes	≥ 80% teacher agreement that materials support grade-level rigor and instructional clarity	None	None

Planning Year Action Plan						
Planning Year Activity (What do you plan to do?)			Provide professional development and supports			
Lead person (Who is responsible for ensuring the work gets done?)			Deputy Superintendent for Instruction			
Team Members (Who are responsible for doing the work?)			Director of Elementary Education, Teaching & Learning Supervisors, School Principal			
Action Step <i>(What will be accomplished?)</i> List the specific, sequenced steps required to complete the activity.	Process Owner <i>(Who is responsible for ensuring the action step is complete?)</i> Identify a single, accountability lead.	Time Frame <i>(How long will it take?)</i> Identify the start and end dates for each action step, including any key milestones.	Progress Checks <i>(How will the team monitor progress?)</i> Define key dates to review process, make adjustments, and confirm the work remains on track.	Measures of Success <i>(How will the team know if the action step is complete?)</i> Define clear, observable indicators of completion.	Cost Elements <i>(What resources are needed to complete the action step?)</i>	Funding Source <i>(Where will the money come from?)</i>

Conduct professional learning needs assessment.	Deputy Superintendent for Instruction	Spring - Summer 2026	Results from needs assessment will drive division wide professional learning plan	Results from needs assessment will drive division wide professional learning plan	None	None
Develop division-wide Professional Learning Plan aligned to school & division priorities	Directors from Teaching & Learning, Student Services, Special Education, and Information Technology	Spring - Fall 2026	Division Professional Learning Catalog for 26-27 SY	95% staff sign up and participate in required professional learning trainings	None	None
Establish coaching cycles and PLC structures	Deputy Superintendent for Instruction Director of Elementary Education School Principal	Spring 2026- Spring 2027	Coaching cycle documentation PLC agendas and minutes	Teacher self-assessment growth and improved benchmark assessment results	None	None
Provide training on (new) instructional programs/interventions	Directors & Supervisors from Teaching & Learning, Student Services, Special Education, and Information Technology	Summer 2026 - Spring 2027	PD/PL attendance logs	≥ 95% staff participation in required professional learning trainings	Supervisors,, HQIM Support, Time	School Improvement Funding

Develop implementation monitoring tools	Directors from Teaching & Learning, Student Services, Special Education, and Information Technology	Summer - Fall 2026	Instructional Walkthrough data	Improved benchmark assessment results	None	None
---	---	--------------------	--------------------------------	---------------------------------------	------	------

Planning Year Action Plan

Planning Year Activity (What do you plan to do?)		Implement Other Planning Activities as Needed				
Lead person (Who is responsible for ensuring the work gets done?)		Deputy Superintendent for Instruction				
Team Members (Who are responsible for doing the work?)		Directors & Supervisors from Teaching & Learning, Student Services, Special Education, and Information Technology , School Principal				
Action Step <i>(What will be accomplished?)</i> List the specific, sequenced steps required to complete the activity.	Process Owner <i>(Who is responsible for ensuring the action step is complete?)</i> Identify a single, accountability lead.	Time Frame <i>(How long will it take?)</i> Identify the start and end dates for each action step, including any key milestones.	Progress Checks <i>(How will the team monitor progress?)</i> Define key dates to review process, make adjustments, and confirm the work remains on track.	Measures of Success <i>(How will the team know if the action step is complete?)</i> Define clear, observable indicators of completion.	Cost Elements <i>(What resources are needed to complete the action step?)</i>	Funding Source <i>(Where will the money come from?)</i>
Establish school improvement / implementation team	School Principal	Summer 2026	List of team members	List of team members	None	None
Develop detailed implementation timeline with benchmarks	School Principal	Summer/Fall 2026	Implementation timeline document	Completion of planning benchmarks	None	None

Create a progress monitoring dashboard (academic, attendance, behavior).	Directors from Teaching & Learning, Student Services, Special Education, and Information Technology	Summer/Fall 2026	Dashboard Data Reports	Clear progress monitoring system operational before implementation year	Student Information System	None
Conduct quarterly review meetings with division leadership	Deputy Superintendent for Instruction, Directors from Teaching & Learning, Student Services, Special Education, and Information Technology, and School Principal	Quarterly during 26-27 SY	Quarterly meeting agenda and minutes	Supporting data during quarterly meetings	Data Reports	None

Multi-year School Support Plan

Table 6: Multi-year School Support Plan

Complete a support plan for each prioritized root cause from the completed [needs assessment process](#). For each goal, identify the 3-year goal statement, framework indicator, measurable objectives, Evidence-based Strategy, intended outcomes, the lead person, and appropriate team members. Then, identify the actions steps, process owner, time frame, progress checks, measures of success, cost elements, and funding sources.

Multi-year School Support Plan			
3-Year Goal Statement Include the goal statement completed as part of the needs assessment process.	By June 2028, the percentage of all students passing the Virginia Reading SOL will increase to 76% or improve by at least one performance category from the previous year.		
School Performance and Support Framework Alignment Select indicator that the goal addresses.	Reading Mastery		
Measurable Objectives Define objectives that support accomplishing the goal.	Measurable Objective Year 1	Measurable Objective Year 2	Measurable Objective Year 3
	By the end of Year 1, the school will increase the percentage of students scoring proficient or above on state standardized assessments by at least 10–15 percentage points from baseline from 43%-56%. This growth will result from implementing a guaranteed and viable curriculum with documented standards alignment, with 100% of teachers demonstrating consistent use of pacing guides, common planning structures, and aligned assessments as	By the end of Year 2, at least 56%-66% students will score proficient or above on state standardized assessments. Instructional delivery will reflect consistent, standards-based practices across classrooms, with 90% of observed lessons meeting agreed-upon instructional framework indicators. Student growth will be monitored through benchmark assessments, with instructional adjustments documented during collaborative data cycles and verified through instructional	By the end of Year 3, 66%-76% of students will meet or exceed proficiency benchmarks on state standardized assessments. This outcome will be supported by sustained, schoolwide instructional alignment, consistent delivery of standards and high-impact teaching strategies, and systematic progress monitoring ensuring all student groups demonstrate measurable academic gains aligned to grade-level standards. This will be verified through instructional

	verified through instructional walkthroughs, observations and bi-weekly and quarterly data reviews.	walkthroughs, observations, and bi-weekly and quarterly data reviews.	walkthroughs and bi-weekly and quarterly data reviews.			
Evidence-Based Strategy Describe the evidence-based strategy and the rationale for selection. Identify evidence tier.	<p><u>Evidence-Based Strategy:</u> Foundational Skills to Support Reading and Understanding in Kindergarten through 3rd Grade. https://ies.ed.gov/ncee/WWC/PracticeGuide/21 <u>Description and Rationale:</u> To teach students to decode words, analyze word parts, and write and recognize words. Develop awareness of the segments of sounds in speech and how they link to letters. Tier: 1</p> <p><u>Evidence-Based Strategy:</u> Providing Reading Interventions for Students in Grades 4-9-subsection 3 Routinely use a set of comprehension-building practices to help students make sense of the text https://ies.ed.gov/ncee/WWC/PracticeGuide/29 <u>Description and Rationale:</u> Build students' decoding skills so they can read complex multisyllabic words. Tier:1</p>					
Intended Outcomes Describe how student outcomes will improve as a result implementing the evidence-based strategy.	Student outcomes will improve by students learning how to decode words and develop awareness of segments of the sounds in speech and how they link to letters to increase reading fluency and proficiency.

Addressing Resource Inequities

Table 7: Addressing Resource Inequities Plan

The Addressing Resource Inequities Plan should be completed by Comprehensive Support and Improvement and Additional Targeted Support and Improvement schools following the complete of the Resource Inequity Review.

Complete a resource inequities plan for each prioritized root cause from the completed Resource Inequity Review process. For each area, identify the 3-year goal statement, measurable objectives, strategy, intended outcomes, the lead person, and appropriate team members. Then, identify the actions steps, process owner, time frame, progress checks, measures of success, cost elements, and funding sources.

Addressing Resource Inequities Plan

<p>3-Year Goal Statement Include the goal statement completed as part of the Resource Inequity Review process.</p>	<p>By Spring 2028, the school will collaborate with the division to redesign its federal funding allocation and monitoring systems to ensure that Title I and other federal resources are appropriately reviewed, strategically aligned to root causes, performance-driven, and directly tied to measurable academic, student group, and attendance improvement outcomes in federally identified schools</p>		
<p>Measurable Objectives Define objectives that support accomplishing the goal.</p>	<p>Measurable Objective Year 1</p>	<p>Measurable Objective Year 2</p>	<p>Measurable Objective Year 3</p>
	<p>By Spring 2026, the school and division will complete a comprehensive audit of 100% of Title I and applicable federal expenditures and implement a documented Federal Funding Alignment Matrix linking all major expenditures to identified root causes, academic proficiency targets, subgroup gap reduction goals, and chronic absenteeism benchmarks. A review of discretionary federal funds will be reviewed and allocated to high-impact instructional, intervention, and attendance strategies directly tied to measurable improvement outcomes.</p>	<p>By Spring 2027, federal expenditures will be aligned to specific academic, subgroup, and attendance performance indicators and monitored through quarterly fiscal-to-performance reviews. Funded strategies will demonstrate measurable impact, including at least a 5–8 percentage point increase in Reading and/or Math proficiency trends and documented reduction in subgroup performance gaps and chronic absenteeism toward the ≤15% target.</p>	<p>By Spring 2028, the school will institutionalize an equity-weighted, performance-driven federal funding model in which 100% of Title I and other federal resources are strategically aligned to root causes and reviewed quarterly for measurable return on investment. Funded initiatives will contribute to achieving 12–15+ percentage point gains in Reading and Math proficiency, at least a 25% reduction in subgroup achievement gaps, and chronic absenteeism reduced to 12% or lower.</p>
<p>Strategy Describe the strategy and the rationale for selection.</p>	<p>Fiscal</p>		

<p>Intended Outcomes Describe how student outcomes will improve as a result implementing the strategy.</p>		<p>Federally identified schools receive Title I and other federal funds intended to improve outcomes for students experiencing the greatest academic need; however, these resources are not consistently structured, monitored, or strategically aligned to the division's identified root causes. Funding allocations have historically emphasized compliance and formula distribution rather than performance-driven investment tied directly to measurable improvements in literacy, mathematics, subgroup achievement, and attendance.</p> <p>As a result, federal funds are not always concentrated on the highest-leverage instructional, intervention, staffing, and recovery strategies needed to accelerate growth and close achievement gaps. Additionally, monitoring systems do not consistently link expenditures to academic return on investment, limiting the division's ability to evaluate impact and make timely adjustments.</p> <p>This misalignment reduces the effectiveness of federal funding as a strategic tool for systemic improvement in federally identified schools.</p>				
<p>Lead person (Who is responsible for ensuring the work gets done?)</p>		<p>Deputy Superintendent</p>				
<p>Team Members (Who are responsible for doing the work?)</p>		<p>Deputy Superintendent, Director of Instruction, Supervisors, Finance Department, Principal, Data & Accountability Coordinator, Title I Staff, School Improvement Team</p>				
<p>Action Step <i>(What will be accomplished?)</i> List the specific, sequenced steps required to complete the activity.</p>	<p>Process Owner <i>(Who is responsible for ensuring the action step is complete?)</i> Identify a single, accountability lead.</p>	<p>Time Frame <i>(How long will it take?)</i> Identify the start and end dates for each action step, including any key milestones.</p>	<p>Progress Checks <i>(How will the team monitor progress?)</i> Define key dates to review process, make adjustments, and confirm the work remains on track.</p>	<p>Measures of Success <i>(How will the team know if the action step is complete?)</i> Define clear, observable indicators of completion.</p>	<p>Cost Elements <i>(What resources are needed to complete the action step?)</i></p>	<p>Funding Source <i>(Where will the money come from?)</i></p>

<p>The school, in collaboration with the division, will conduct and document a comprehensive review of 100% of Title I and applicable federal expenditures to ensure alignment with identified root causes, academic performance goals, subgroup improvement targets, and chronic absenteeism benchmarks. This audit will establish a baseline for reallocating resources toward high-impact, performance-driven strategies.</p>	<p>Deputy Superintendent Director of Instruction Supervisors Finance Department Principal Data & Accountability Coordinator Title I Staff School Improvement Team</p>	<p>Spring 2026-Summer 2028</p>	<p>Quarterly: Documentation of mid-year reallocation decisions Mid-Year: Analyze academic growth vs funded initiatives Adjust allocations if targets are not met Annual: Present funding-performance alignment report to committees.</p>	<p>Fiscal to performance dashboards embedded in continuous improvement cycles Federal fund alignment process integrated into annual school improvement planning Documented evidence that ineffective expenditures are discontinued or redesigned</p>	<p>Staff Time for audit and fiscal review meetings Possible Substitute Coverage for planning sessions Training for school leaders on fiscal to performance monitoring</p>	<p>School Improvement Funds Title II (PD support)</p>
<p>The school will embed an annual federal funding review into its School Improvement Planning and budgeting process to ensure sustained alignment of resources with</p>	<p>Deputy Superintendent Director of Instruction Supervisors Finance Department</p>	<p>Spring 2026-Summer 2028</p>	<p>Quarterly: Documentation of mid-year reallocation decisions Mid-Year:</p>		<p>None</p>	<p>None</p>

<p>performance data. This review will include documented analysis of academic growth, subgroup trends, attendance outcomes, and fiscal impact to support long-term sustainability and CSI exit readiness.</p>	<p>Principal Data & Accountability Coordinator Title I Staff School Improvement Team</p>		<p>Analyze academic growth vs funded initiatives</p> <p>Adjust allocations if targets are not met</p> <p>Annual: Present funding-performance alignment report to committees.</p>			
---	--	--	--	--	--	--

Addressing Resource Inequities Plan			
<p>3-Year Goal Statement Include the goal statement completed as part of the Resource Inequity Review process.</p>	<p>By Spring 2028, the division will eliminate inequities in access to high-quality instructional materials, intervention services, acceleration opportunities, coaching support, and data monitoring systems across federally identified schools, resulting in:</p> <ul style="list-style-type: none"> ● 12-15% point increases in Reading and Math SOL proficiency ● A minimum 25% reduction in subgroup achievement gaps ● Chronic absenteeism reduced to 15% or lower ● Documented fidelity of division instructional frameworks in 100% of classrooms 		
<p>Measurable Objectives Define objectives that support accomplishing the goal.</p>	<p>Measurable Objective Year 1</p>	<p>Measurable Objective Year 2</p>	<p>Measurable Objective Year 3</p>

	By Spring 2026, the division will ensure that 100% of federally identified schools have access to division-approved high-quality instructional materials, standardized intervention programs, structured acceleration opportunities, coaching support, and operational data dashboards. At least 75% of classrooms will demonstrate fidelity to the division instructional framework, chronic absenteeism will decrease by 2–3 percentage points from baseline, overall Reading and Math proficiency will increase by 4–5 percentage points, and subgroup achievement gaps will narrow by at least 8–10% of baseline gaps.	By Spring 2027, the division will ensure consistent implementation of high-quality instructional materials, intervention systems, acceleration programming, coaching cycles, and integrated data monitoring across all federally identified schools. At least 85% of classrooms will demonstrate instructional framework fidelity, Reading and Math proficiency will show a cumulative 8–10 percentage point increase from baseline, subgroup achievement gaps will be reduced by at least 15–20% cumulatively, and chronic absenteeism will decrease to 15–17% or demonstrate a cumulative 5–6 percentage point reduction from baseline.	By Spring 2028, the division will provide access to high-quality instructional materials, research-based intervention services, structured acceleration opportunities, sustained coaching support, and integrated data monitoring systems across all federally identified schools. Documented instructional framework fidelity will be evident in 100% of classrooms, Reading and Math SOL proficiency will increase by 12–15+ percentage points from baseline, subgroup achievement gaps will be reduced by at least 25%, and chronic absenteeism will be reduced to 15% or lower.
Strategy Describe the strategy and the rationale for selection.	Instructional Resources and Opportunities		
Intended Outcomes Describe how student outcomes will improve as a result implementing the strategy.	Federally identified schools do not consistently have access to high-quality instructional materials, standardized intervention services, structured acceleration opportunities, sustained coaching support, and integrated data monitoring systems. Variability in curriculum alignment, intervention intensity, professional learning access, and progress		

<p>monitoring infrastructure results in inconsistent instructional quality and uneven student support across schools.</p> <p>Students in high-need schools are therefore less likely to experience fully aligned, grade-level rigorous instruction delivered with fidelity, timely and research-based interventions, or systematic acceleration pathways. In addition, fragmented data systems limit proactive identification of academic and attendance risks.</p> <p>This inequity reflects a systemic misalignment between the division's instructional expectations and the consistency, resources, and monitoring structures available across federally identified schools, contributing to persistent achievement gaps and uneven growth outcomes.</p>

Addressing Resource Inequities Plan

<p>3-Year Goal Statement Include the goal statement completed as part of the Resource Inequity Review process.</p>	<p>By Spring 2028, the division will eliminate inequities in student support service delivery across federally identified schools by implementing equity-weighted staffing models, integrated academic and behavioral support systems, and centralized compliance monitoring structures, resulting in:</p> <ul style="list-style-type: none"> ● 25+ percentage point increases in SWD and EL proficiency ● 50% reduction in subgroup achievement gaps ● Chronic absenteeism reduced to 12% or lower ● 100% compliance with IEP and EL monitoring requirements 		
<p>Measurable Objectives Define objectives that support accomplishing the goal.</p>	Measurable Objective Year 1	Measurable Objective Year 2	Measurable Objective Year 3

	<p>By Summer 2026, the division will conduct and document a comprehensive review of staffing allocations in all federally identified schools to address alignment with student need indicators (SWD, EL, academic risk, and attendance trends), establish integrated academic and behavioral support systems, and launch centralized compliance monitoring processes. At least 90% compliance with centralized compliance monitoring requirements will be achieved.</p>	<p>By Summer 2027, the division will complete a second documented review of staffing allocations in all federally identified schools using updated student need indicators (SWD, EL, academic risk, and attendance trends) and implement documented adjustments to improve alignment of academic and behavioral support systems. Centralized compliance monitoring processes will be fully operational across all schools, with at least 95% compliance with IEP, EL, and required monitoring requirements, and documented quarterly reviews of service delivery effectiveness.</p>	<p>By Summer 2028, the division will institutionalize an annual staffing and service delivery review protocol aligned to student need and performance data in all federally identified schools. Integrated academic and behavioral support systems will demonstrate consistent implementation, and centralized compliance monitoring processes will achieve 100% compliance with all required monitoring requirements, with documented evidence of continuous improvement and corrective action procedures embedded into division oversight practices.</p>
<p>Strategy Describe the strategy and the rationale for selection.</p>	<p>Student Support Services resource and opportunities</p>		
<p>Intended Outcomes Describe how student outcomes will improve as a result implementing the strategy.</p>	<p>Federally identified schools serve higher concentrations of Students with Disabilities (SWD), English Learners (EL), and students experiencing chronic absenteeism; however, student support service delivery is not consistently aligned to the intensity of need. Staffing ratios, access to specialized instructional supports, behavioral and mental</p>		

		<p>health services, and compliance infrastructure vary across schools, resulting in uneven service delivery and inconsistent instructional access.</p> <p>In high-need schools, elevated caseloads, limited integrated academic and behavioral systems, and fragmented compliance monitoring structures reduce the division’s ability to provide timely, coordinated, and high-quality support. As a result, SWD and EL students experience persistent proficiency gaps, attendance challenges remain elevated, and compliance processes compete with instructional focus.</p> <p>This inequity reflects a misalignment between student need intensity and the structure, staffing, and monitoring systems designed to support those students.</p>

Assurances

Assurance of Review and Approval	
School Year:	2025-2026
Division Name:	Lynchburg City Schools
Division-Level Team Lead Name:	Dr. Jennifer Davis
Division-Level Team Lead Email:	davism1@lcsedu.net
School Name:	Perrymont Elementary School
Principal Name:	Mrs. Dominique Foster
Principal Email:	fosterdc@lcsedu.net
School Performance Category:	Off Track
School Federal Designation:	Comprehensive Support and Improvement - Low Performing

For **Comprehensive Support and Improvement** Schools, the Multi-year School Support Plan must be written by the school division for the school and include four evidence-based Interventions. The proposed plan must be approved by the principal and division, reviewed by the local school board, and submitted to the Virginia Department of Education (the Department) by the Division Superintendent for final approval. The Virginia Department of Education will review the plan and may request revisions before approving the plan. The Department-approved plan must be published on the division website and the school website. The Multi-year School Support Plan will be incorporated as a component of the school's comprehensive, unified, long-range plan. (8VAC20-132-280(C)(1)) (ESEA Section 1111(d)(1)(B)(v)).

For **Targeted Support and Improvement** and **Additional Targeted Support and Improvement** schools, the Multi-year School Support Plan must be written by the school and include two evidence-based Interventions. The proposed plan must be approved by school division and the local school board. The approved plan must be published on the division website and the school website. The Multi-year School Support Plan will be incorporated as a component of the school's comprehensive, unified, long-range plan. (8VAC20-132-280(B)) (ESEA Section 1111(d)(2)(B)(iii)).

By signing below, I certify that I have thoroughly reviewed the Multi-year School Support Plan for the federally identified school named in this document. I affirm that the plan:

- Aligns with federal and state requirements for school improvement;
- Addresses the needs identified through a school needs assessment;
- Includes the minimum number of required evidence-based interventions;
- Reflects stakeholder input and collaboration; and
- Establishes clear goals, timelines, and progress monitoring processes.

I approve the contents of this plan and commit to supporting its implementation with fidelity to ensure improved outcomes for all students.
