SECRET SALT SOURCES.

75% of the salt we consume comes from
restaurants and processed foods. And it's not
always easy to tell how much salt you're getting.
That's why we're committed to meeting new
standards for limiting
sodium until we
reach a maximum of
740 mg sodium per
meal on average.

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

VEGETABLE Carrots

Carrots are a great
source of vitamin A, beta
carotene, and fiber. And
they're a great snack
without ANY sodium
or fat! Just go very
light on the ranch
dressing!

EMERGENCY SNACK

- Parents, please remember it is **your** responsibility to keep your child's account current. Make sure you place enough money on your child's account to cover the cost of his/her school meals.
- If no money is received and the parent has not made arrangements for his/her child, School Nutrition will provide a student with a toasted cheese sandwich or cheese crackers, fruit, and a carton of milk. This emergency snack provides the nutrition a student needs to get through the school day.
